

The Ideas Book
Smart furniture concepts

Technik für Möbel

Hettich

TOGETHER IN ONE PLACE.
INDIVIDUAL IN THE HOME.

People and their furniture. The individuality of human beings is equalled by the demands they place on their furniture. What's important to YOU? Would you like to keep the architectural style of your house consistent in your living areas? Do you want to take advantage of smart convenience functionality to enjoy a relaxed environment at home? Would you like to make the most efficient possible use of available space while simultaneously keeping an eye on aesthetics? Whatever your priorities may be, intelligent fitting technology for furniture can make your desires a reality.

Discover the fascination of smart furniture. Ergonomic and relaxing. Lightweight and quiet. Aesthetic and tidy. Flexible and livable. And last but not least, individual and creative. We hope you enjoy reading our book of ideas.

Fascinated by solutions.
We call it

Fascin[action]

4-17

MORE SPACE

How to create storage space and make efficient use of it. How household equipment can disappear while remaining readily accessible. And how even the kids' room stays tidy.

18-27

MORE CONVENIENCE

Furniture with well-designed ergonomic functionality make the living room into a wellness zone. Storage space becomes incredible practical and every movement is quiet as a whisper.

28-41

MORE DESIGN

New design worlds – a possibility thanks to sophisticated furniture technology. Thin materials. Handleless front panels. Variable styles. Be inspired!

MORE SPACE

Get the most storage space possible into your house. Make efficient use of the smallest spaces. Make cabinet volume easily accessible. Clever functional solutions will excite anyone who wants more space, because organised accessible spaces increase our feeling of harmony and freedom.

"There's always a lot going on in our home. How do we keep things tidy? It's simple: clever storage space solutions! We discovered lots of space even in our little house. And we can enjoy our time together without worries."

THE STAIRCASE AS STORAGE SPACE MIRACLE

Staircases, pitched roofs, niches and corners, often leave a lot of space unused. There is a great potential there to create storage space that you can use efficiently and ergonomically with Hettich fitting technology. It even fits under the roof.

**1. Organisational system
Big Org@Tower Wood with Easys:**
the Big Org@Tower Wood with electromechanic opening support offers extra storage space under the stairs.

2. Pencil tray system SmarTray:
small items are quickly put away in the SmarTray pencil tray system. On request, also lockable.

4

5

3. Folding door system WingLine L: open the entire door set with a single push.

4. Hinge Sensys: for handleless doors, the design award winning Sensys hinge with Push to open function.

5. Drawer runner Quadro for wooden drawers: handleless drawers with Push to open function can be opened at a single push anywhere on the front panel. Optional with synchronization.

1. Sliding shelf: dual use for maximally visible storage space. Even large objects like vacuum cleaners and ironing boards have space behind the shelf.

2. Drawer runner Quadro: with the optional pull-out stop, the pull-out shelf can be securely fastened.

3. Power assisted height adjustment LegaDrive: fold-up corner for clever storage options makes it possible to use storage space otherwise difficult to access.

4. Folding door system WingLine L: new ways to provide access to washing machine and dryer.

A BETTER UTILITY ROOM

Good structural design and lots of storage space in the utility room are worth their weight in gold. When everything has its place and is readily available, housework is easier and faster than ever: stow dry laundry immediately, find utensils instantly and store even larger pieces of household equipment in a clever way. Simply perfect. And it's attractive, too.

THE INVISIBLE HOME OFFICE

1. Lifting column system LegaMove: brings the work surface to the desired height using electric motors.

2. Hinge K08: opens a generous 115 degrees, closes smoothly thanks to Silent System, and moves large or small doors safely and conveniently.

3. Sensys hinge with adhesive linear mounting plate and special cup for glue mounting: purity in design – thanks to adhesive mounting of the hinges.

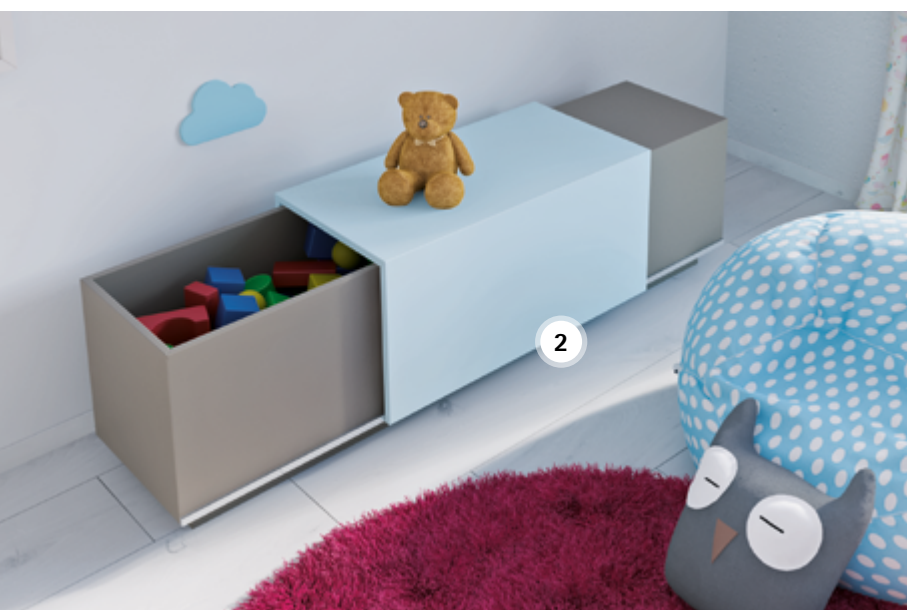

A workplace in the living room may be practical, but it can disrupt the comfortable living atmosphere. The solution: the compact office disappears for the evening by converting into a glass cabinet. In the morning, open it up again and the working day can begin.

CHAOS-FREE CHILDREN'S ROOMS

By day, an adventure playground: the kids' room. The battle against chaos here has only one true champion ... plenty of storage space! Sliding door cabinets with functional interior decoration, pull-out chests and large drawers – all help to bring calm and order back to the playroom.

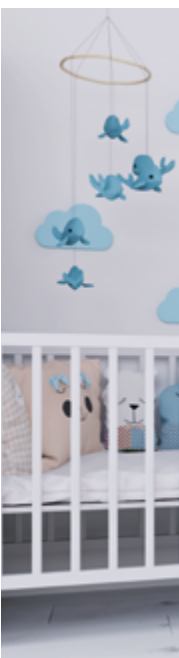

1. Sliding door system TopLine L:
space-saving cabinet with integrated
nappy changing table.

2. Sliding door system SlideLine M:
storage space and seat at the same time.

3. Quadro over extension runner with Synchro Access:
open two drawers at once with a single handle.

4. Organisational system Big Org@Tower Wood:
pull-out nappy changing table, visible only when needed.

5. Drawer system InnoTech Atira:
making child's play of keeping everything neat and tidy – with practical storage space.

6. Sliding door system SlideLine M:
smoothly running sliding doors. Operating convenience for the whole family.

MORE CONVENIENCE

Three generations under a single roof – that places special demands on the functionality and ergonomics of your furniture. Inhabitants both small and large should feel equally comfortable in any phase of life, and in every room.

"For our furniture we put a lot of value on comfort and ergonomics. For example, we like to ensure cabinet doors and drawers to move easily and conveniently. And quietly of course – we truly enjoy the quite, high-quality feel of furniture."

1. Electromechanical opening system Easys:
opens refrigerator doors reliably and safely at a push.

2. Drawer runner Quadro Compact with Silent System:
full access to fresh produce and freezer drawers.

3. Hinge K08 with Silent System:
for damping refrigerator doors.

KITCHENS WITH CHARACTER

Cook ergonomically, eat in comfort: with intelligent planning and implementation, the kitchen can be a convenience zone. All the kitchen equipment is at the perfect working height. Cooking implement and tableware are easy to reach. Supplies are stowed in an orderly fashion and accessible at any time.

3

3. Lifting column system

LegaMove: the wall unit is easily pulled down to an ergonomic height, permitting comfortable access to cabinet contents.

"I am really happy with our intelligently fitted furniture. So many convenient functions! Our cabinet doors and drawers are wonderfully ergonomically. They are easy and quite to move ... and they open comfortable and wide. That's all extremely convenient, even by having individual adjustment functions."

4. Lift fitting ComfortSwing:

perfect ergonomics thanks to fold-up dishwasher basket.

1. Drawer runner Actro 5D: cross partition with extraordinary sliding comfort and integrated storage space. Additional support roller guarantees outstanding load capacity.

2. Power assisted height adjustment

LegaDrive: makes your washbasin height-adjustable and makes the bath ready for the whole family.

3. Adjustable fitting Rastomat with Silent Mode and Easy Stop:

fold open stool provides additional storage space.

4. Friction fitting

FricoFlex: tilting mirror for easily styling hair sitting down.

5. Drawer system

AvanTech: the drawer with fine design accents.

CONCEPT STUDY

BATH WITH BONUS

Plenty of ideas for the bath:
the height-adjustable washstand is ergonomic for every body size. The cross partition for the toilet provides practical storage space. Ergonomically designed, the bath is good for both old and young. Who knows what the future may bring?

CABINETS FOR THE WELL-RESTED

Exciting design, fascinating functions. This bedroom cabinet opens its entire storage space in just seconds – with just one hand motion, easily and conveniently, for a complete overview and fast access. Different opening functions also ensure convenience in the interior.

1. Sliding door system
TopLine L: top running sliding doors for elegant front solutions. Damped in every direction and easy to mount.

2. Folding door system
WingLine L: open the entire door set with a single push.

**3. Lifting column system
LegaMove:**

the top panel in the cabinet moves easily down for convenient access.

4. Sliding door system TopLine M: attractive design for small-format sliding door cabinets.

5. Drawer runner Quadro for wooden drawers: elegantly concealed under the drawer.

MORE DESIGN

Design is their top priority. Form lovers want purity and linearity. They like wide furniture front panels with narrow, perfectly aligned reveals – and of course without visible handles. The functional technology has to be mobile and quiet, with concealed function.

"I'm a straight-laced kind of person, and that's how I like it at home: generous architecture, clear lines, no embellishments. Inside and out. Handleless front panels? Genius! That's my design world, my home. This is where I feel best...."

ELEGANT DINING ROOM

Thin materials and fine contours set fresh design accents in the eating area. A variety of functions allow the design to be varied. The dining room can become an ever-changing aesthetic highlight.

1. Thin door hinge Sensys:
trendy, thin contours set a visual
highlight.

3. Drawer runner Actro 5D for wooden drawers: for a perfect reveal alignment with 5D adjustment.

2. Power assisted height adjustment LegaDrive: bar cube of an unusual kind. The press of a button raises the bottles up out of the cube.

SMART SIDEBOARD

With its floating character, the illuminated display cabinet is a real eyecatcher because it can be moved across horizontally – with impressive ease. The combination of glass and matt black creates a classy look.

1. SlideLine M sliding door system:

Almost appearing to float, the display cabinet can be moved horizontally with effortless ease.

2. Adhesive mounted Sensys hinges:

For a purist overall impression, Sensys hinges with special cup and linear mounting plate are stuck onto the glass. The narrow bonding surface underscores the linear design.

1

CLEVER KITCHEN ISLAND

Inside and out, the best design quality. The kitchen island gives the room an impressive, tidy look. Drawers on both sides provide plenty of practical storage space. A design highlight are the height adjustable wall units – storage space efficiency and design working as one.

1. Lifting column system LegaMove:
we make your kitchen a design object – with the quality and perfection of height-adjustable wall units.

2. Drawer system AvanTech: flawlessly pure look brings the furniture design to full expression.

It makes things easy for its owner. Both cabinet doors open and close together with a single hand motion. Convenient 100% access to cabinet contents. The closed front panel lends it a calm, elegant overall appearance.

CHARMING BEDROOM CABINET

1. Sliding door system TopLine XL: move both door wings comfortably with one hand thanks to the synchronisation of the two middle doors.

2. Drawer runner Quadro for wooden drawers: for more storage space in the wardrobe.

THE PERFECT OFFICE

The office leaves the freedom for individual design entirely to the taste of the user. With LegaDrive systems, height-adjustable tables can also have a cubist interpretation. And Hettich sliding door systems are the ideal starting point for inspired, custom cabinet design.

1. Power assisted height adjustment LegaDrive: works so your back won't need to.

2. Organisational system Big Org@Tower: the entire storage space pulls out to the side.

3. Sliding door system SlideLine M: smooth running sliding door system at binder height.

4. Thin door hinge Sensys: exclusive design characteristic thanks to Sensys thin door hinge.
