SIGNIFICANCE OF STORAGE SPACES IN YOUR WARDROBE

Wardrobe is not just a piece of furniture used for storage; it is also a reflection of one's personality and lifestyle. In this Idea Book, we showcase sliding fittings viz. Slideline M, TopLine M and SlideLine 16, which are innovative in design and currently in vogue.

Gender & Status

Every utilitarian furniture concept revolves around gender, and hence makes it gender-centric. The details will vary from finishes to accessories to form. A diverse range of accessories from Hettich will support the needs of men and women alike, ranging from storage of shirts to trousers to gowns and dresses to storing compact items like wallets to watches to belt and ties.

Lifestyle

The furniture will again vary from the different trendy lifestyle each individual embodies from time to time. We are already surrounded by them in our day to day lives. For example, men who like to collect neckties and cuff-links or women fond of acquiring exquisite bags and shoes or gorgeous gowns have nothing to worry about. Innovative Hettich furniture fittings and accessories are here for you.

Your organizing preferences

A very subjective scenario to cater to. Some people hang everything, including t-shirts. Some people prefer to fold their pants in shelves, while others fold their trousers over a hanger. Some like to use shelves, while others like drawers. Think and choose from our wide range of Hettich accessories and organizers, which resonate with your style.

Security

Apart from the basic function of storing, wardrobe demands a sturdy locking mechanism which not only provides function but aesthetics too. Hettich provides wide range of single to multi door locking solutions to smart locks, i.e RFID lock system ensures safety in all angles.
